Samsung Digital MFP with direct USB memory connectivity.

DigitAll breakthrough
SCX-4520/4720F/4720FN

SAMSUNG

Meet the world's first laser MFP with direct USB memory connectivity.

The Samsung SCX-4520/SCX-4720F/4720FN are multi-functional (MFP) digital printer, copier, colour scanner and fax (SCX-4720F/4720FN only) with a difference. With Samsung's breakthrough direct USB memory connectivity, you can scan or print directly to or from a USB memory device, without even attaching your computer.

Now your scanned data is instantly mobile, with digital scans available in colour (.jpg, .bmp, .pdf, .tiff files supported). Or, upload your favourite settings or phonebook data to USB memory and take them with you. And you only have to plug in to get high-quality printouts – directly from your USB memory (.txt, .prn, .bmp, .tiff, .jpg files supported).

SCX-4720FN offers standard network printing and scanning capabilities built in for effective management of your documents across the network environment.

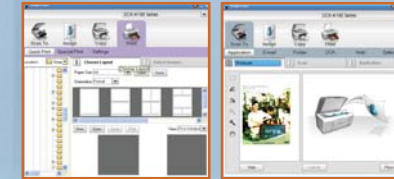

Digital copying.

- Fast speed up to 20 pages(A4)/min digital copying
- Up to 1,200dpi effective output
- 25–400% (platen) zoom range
- Multi-copy up to 99 pages

- 2-sides-in-1 copy (ID Copy)** 2 separate scans combined onto one copy, without any wasted paper
- Auto-fit** a small image to fit the printed page
- Clone Copy** the same image in reduced size on one printed page
- Poster Copy** one image can be enlarged up to 300% and printed in up to 9 exactly matching A4 prints

SmarThru4™

SmarThru4™ document handling software will let you edit scanned images, save them in various formats, and set up copy/ print formats – one click at a time.
