

Fast. Efficient.

Powerful.

The Sharp FO-4400 Super G3 Workgroup Facsimile delivers the features and performance your business needs to keep moving at top speed.

Designed for busy offices and workgroups, the Sharp FO-4400 Super G3 Workgroup Facsimile offers the innovative technology and advanced features needed to meet the challenges of today's demanding business environment. Powered by a robust 12 ppm print engine, the FO-4400 offers 1.3-second quick scan, Super G3 modem technology, Remote Diagnostics, and more. And, with features that include broadcasting to 154 locations, document memory backup, and personal auto-dial phone books, the FO-4400 can deliver the performance you need to keep your business moving.

FLEXIBLE PAPER SUPPLY

The FO-4400 comes standard with a 250-sheet paper supply that can be easily expanded to 750 sheets with the optional 500-sheet paper drawer. And, with letter / legal size adjustability in either tray, the FO-4400 facsimile can easily meet the needs of any busy office.

FAX SEPARATOR FEATURE

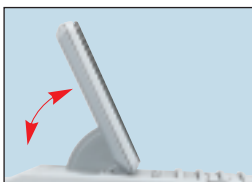

With the optional 500-sheet paper drawer, the FO-4400 also offers an innovative fax separator feature that can insert a coloured sheet of paper between fax receptions for ease of separation. This feature also reduces the amount of time spent sorting through a stack of faxes.

FIRST-IN FIRST-OUT MEMORY MANAGEMENT

With First-In First-Out memory management, multiple page receptions are printed in real time, page-by-page, instead of receiving the entire document into memory first. This technique uses a much smaller amount of memory, leaving more memory available for subsequent jobs.

EASY-TO-READ TILTED STATUS DISPLAY

The FO-4400 facsimile system features a 7" x 3.2" ergonomic status display to make reading easier. And, with a user-adjustable viewing angle of up to 65 degrees, the status display can be positioned for optimum clarity.

ADVANCED AUTO-DIALING CAPABILITIES

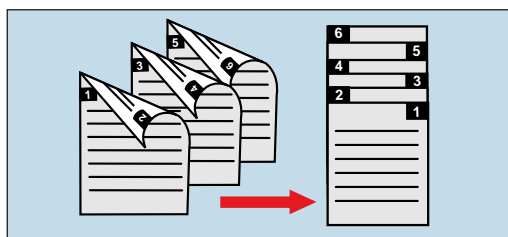

With the most advanced auto-dialing capabilities in its class, the FO-4400 workgroup facsimile is a true performer. In addition to 59 rapid dial (one-touch) keys and 75 speed dial (abbreviated) codes, the FO-4400 also offers 10 personal auto-dial phone books that enable users to store up to 75 numbers in each, for a total of 750 additional numbers. Busy offices that have several departments using the same FO-4400 can assign a personal auto-dial phone book to each of them, which is easily accessed with a PIN number. With all this built in auto-dialing efficiency, you'll never have to manually dial a number again!

FLASH MEMORY PROVIDES RELIABLE DOCUMENT STORAGE

Sharp's flash memory ensures that your documents will be stored safely in the event of a power failure. The FO-4400 comes standard with 2 MB of flash memory, which can store up to 125 pages.* As your business needs grow, you can expand the memory to up to 10 MB, for a total of up to 625 pages.*

DUPLEX SCANNING SAVES TIME AND MONEY

Standard duplex scanning allows users to easily transmit two-sided documents—without having to make a trip to the copier first to separate the pages. The FO-4400 scans both sides, then transmits the pages in the correct order.

ADVANCED PERFORMANCE TO MEET YOUR BUSINESS NEEDS.

USER FRIENDLY SUPPLIES

The drop-in loading design of the FO-4400 makes changing toner and drum supplies clean and simple. And, with colour-coded cartridges, you'll always know the right way to install them.

REMOTE DIAGNOSTICS

With Sharp's F.A.S.T. Remote Diagnostics System, the FO-4400 can be connected to an authorized service technician who can monitor, diagnose, and solve problems right over the phone line. F.A.S.T. also allows technicians to be proactive in responding to your needs, often before you even know a problem exists.

INTUITIVE, EASY-TO-USE INTERFACE

Operation and programming on the Sharp FO-4400 is easy and predictable. With the logically arranged keypad and menus, you'll be an expert on the FO-4400 in minutes.

SPECIFICATIONS

Applicable Telephone Line:	Public Switched Telephone Network (PSTN)
Compatibility:	ITU-T G3
Configuration:	Half-duplex desktop transceiver
